TITLE	Report of the Distribution of Financial Assistance to Students in Florida's Community Colleges.
INSTITUTION	Florida State Dept. of Education, Tallahassee. Div. of Community Junior Colleges.
PUB DATE	Apr 77
NOTE	22p.
EDRS PRICE	MF-$0.83 HC-$1.67 Plus Postage.
DESCRIPTORS	Black Students; Community Colleges; Ethnic Groups; Federal Aid; Females; *Junior Colleges; Junior College Students; Males; Minority Groups; *Scholarship Funds; *Student Financial Aid; *Student Loan Programs; *Tuition Grants; Work Study Programs
IDENTIFIERS	*Florida

ABSTRACT

Eleven tables of data concerning the distribution of financial aid funds to students attending Florida public community colleges comprise the bulk of this report. A total of $30,471,818 was distributed in 1975-76 to 49,518 students in 69,494 grant, loan, scholarship, or student employment awards. Grants, primarily from federal sources, accounted for 57% of aid dollars, loans requiring repayment accounted for 21%, and 20% were awarded for student employment. Blacks, who made up 12% of community college enrollments, comprised 37% of aid recipients, received 39% of the total number of awards, and received 41% of total aid dollars. The amount per grant award was higher for blacks ($525) than for whites ($360), while the amount per loan award was higher for whites ($516) than for blacks ($274). Whites received 80% of the scholarships. Overall, the average amount received by blacks was higher for any other group except Asians. Female recipients outnumbered males in every category except loans; they comprised 52% of aid recipients and received 59% of total aid dollars. Breakdowns of the data by category and institution and comparative data for 1974-75 and 1975-76 are included in the report. (JDS)

APRIL 1977

A Report of the Distribution of Financial Assistance
to Students in Florida's
Community Colleges

Introduction

The purpose of this report is to provide decision- and policy-makers with summary information which accurately reflects the distribution of financial aid funds to students attending Florida public community colleges. It is probably the most comprehensive compilation of information on financial assistance to community college students in Florida that has been developed to date. It is hoped that the value of this information to college, state, and Federal level decision-makers will offset the cost of collecting it at each college.

The information presented in this report was obtained from each Florida public community college on the Office of Civil Rights (OCR) report form entitled "Financial Assistance to Students in Institutions of Higher Education" (OCR 2000B3). This is a form showing the financial aid awarded to the students by each college during the 1975-76 school year. The detailed instructions and definitions are presented following the tables displaying the summary information. The reader should review these to provide a better understanding of the data categories reported.

If more detailed information is needed it can be obtained upon request from the Division of Community Colleges Management Information System.

Discussion of Tables Presented

Table 1 - Summary of Financial Assistance to Students in Florida's Public Community Colleges, 1975-76. This table shows the number of awards, the total dollars awarded, and the average amount per award for each specific award type and major category. It also shows the number of "unduplicated recipients;" i.e., the number of individuals receiving aid. The following are specific points of interest observed from the table:

- The number of awards exceeded the unduplicated recipients by 18,976. This means that a large number of students are receiving more than one type of aid.
- 57% of the aid dollars were for "Grants"
- 75% of the "Grant" dollars were for "BEOG"
- Approximately $14.3 million (82%) of the "Grant" dollars were from Federal programs

- About 21% of the student aid was for "Loans" which require repayment

- 20% of the aid was used for "Student Employment"

- The "Average Amount/Award" varied dramatically for the different aid types (from $94 to $1,340).

Table 2 - Summary of Financial Aid to Students by Race/Ethnic Group. This table shows the distribution of financial assistance to the five major race/ethnic groups. The following specific points were noted:

- Whereas 39% of the awards went to Blacks, 41% of the total dollars went to this group.

- In the "Grants" group, 40% of the awards went to Blacks and 48% of the dollars went to this race/ethnic group.

- The amount per award in the "Grants" group was substantially higher for Blacks ($525) than it was for Whites ($360).

- In the "Loan" group, the amount per award to Whites ($516) was substantially higher than for Blacks ($274).

- 80% of the "Scholarships" went to Whites. This was a much higher proportion than for other aid types.

Table 3 - Summary of Financial Aid to Students by Race/Ethnic Group. This table is the same as Table 2 with the exception that the percents are for the columns rather than rows.

- 59% of the total awards to Blacks were in the form of "Grants." This group also received 66% of the dollars.

- 57% of the total awards to Whites were in the form of "Grants," while 48% of the dollars went to this aid group.

- 27% of the aid dollars to Whites were for "Loans." This was higher than the percent distribution for Blacks (14%).

Table 4 - Comparison of Enrollment to Financial Aid Distribution. This table shows the relationship between the Fall 1975 enrollment and the distribution of financial assistance by race/ethnic group for Fiscal Year 1975-76. The Fall headcount is used simply as an indicator of the percent of each group attending community colleges. In other words, to make this comparison one has to assume that these percents were relatively consistent over the year.

- Blacks made up 12% of the college enrollment, but 37% of the aid recipients were Blacks

- Non-Blacks made up 88% of the total enrollment and 63% of the total number of aid receipients

- Blacks were 37% of the aid recipients and received 41% of the aid dollars

- The average amount received by each Black recipient was higher than for any other group except Asians.

Table 5 - Summary of Financial Aid to Students by Sex. This report is designed to show the distribution of financial assistance by sex for the major aid groups.

- 52% of the total recipients were females and 59% of the total aid dollars went to females

- 46% of the total Fall enrollment were females and 59% of the total aid dollars went to females

Females recipients outnumbered males in every aid group except Loans.

The average amount per female recipient was lower than for males in only the Scholarships aid group.

Tables 6, 7, 8, 9, and 10 - Summary of Financial Assistance by College and Major Aid Group. These tables show the number of aid recipients, total dollars distributed, and average amount per recipient for each college and each major aid group. The annual unduplicated headcount is provided as an indicator of the size of each college.

Table 11 - Trends in the Distribution of Total Student Financial Assistance in Florida's Community Colleges, 1974-76. This table shows increases over two years in the amount of money awarded, the number of awards, and the number of recipients. The average amount per award and the average amount per recipient increased for all categories except Loans. Detailed financial assistance information was gathered by the State for the first time in 1974-75. Thus, one should consider probable errors in the earlier data when trying to explain increases over the two-year period.

Instructions for OCR 2000B3
Financial Assistance to Students in Institutions of
Higher Education

Scope of Reporting Form

OCR 2000B3 is designed to collect data concerning the race/ethnic identification and sex of students applying for financial assistance; granted such assistance; and, the amount of the financial assistance. The report covers full- and part-time students and includes all financial assistance regardless of whether a reporting institution actually makes the awards and loans or only administers them.

Race/Ethnic Identification

An individual is reported in the minority group to which he appears to belong; is regarded in the community as belonging; or categorizes himself as belonging. The race/ethnic designations used in this report do not denote scientific definitions of anthropological origins. Only the specified minority categories need to be reported. American Indian or Alaskan Native is for reporting persons having origins in any of the original peoples of North America. Asian or Pacific Islander is for reporting persons having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands. This includes, for example, China, Japan, Korea, the Philippine Islands, American Samoa. Black (not of Hispanic Origin) is for reporting persons having origins in any of the black racial groups Hispanic is for reporting persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race. White (not of Hispanic Origin) is for reporting persons having origins in any of the original peoples of Europe, North Africa, the Middle East, or the Indian subcontinent. Resident aliens are reported in the appropriate ethnic categories along with citizens of the United States; non-resident aliens are reported separately.

Unduplicated Number of Recipients

The sum of all persons receiving aid from one or more of the assistance programs. In computing this figure, each recipient is counted only once, even if he received assistance from more than one aid program in a category (e.g., BEOG and an Institutional Grant) and/or from more than one aid category (e.g., a grant and a loan). The unduplicated count requested totals the number of unduplicated recipients for all categories of aid. This count may not be equal to the sum of the unduplicated recipients in the four assistance categories because some students may have received aid from more than one category.

Grants

This category of financial assistance includes awards that are made outright (require no repayment in service or cash). Any type of tuition waivers or remissions for students represents a type of financial assistance and are included in the Grants category. Scholarships (awards based on skills and/or academic attainment) are not reported in this category. The various types of grants are:

BEOG (Basic Educational Opportunity Grants). Federally funded direct student grants authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards should be consistent with the data reported by the institution in the BEOG Fiscal Operations Report.

SEOG (Supplemental Educational Opportunity Grants). Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the SEOG Fiscal Operations Report, OE Form 1152.1.

VOCATIONAL REHABILITATION. Authorized in the Rehabilitation Act of 1973 (P.L. 93-112), with matched Federal/State funding.

STATE AND LOCAL. Includes all State and Local government grants (e.g., Florida Assistance Grant) but does not include those funds allocated by the State to the institutions.

PRIVATE SOURCES. Includes any non-government source which provides for grants.

INSTITUTIONAL GRANTS. Includes those grant awards provided entirely by the reporting institution.

TUITION WAIVERS. Includes all types of tuition waivers and remissions to students enrolled at the reporting institution.

ALL OTHER GRANTS. Includes all other Federal grants and any type of grant not specifically addressed above.

Scholarships

This category of financial assistance includes awards to students which are outright (require no repayment in service or cash) and which are based on skills and academic attainments to determine recipients.

Loans

This category of financial assistance includes loans that require repayment. The category has two sub-categories: Repayable by Cash Only; and, Repayable by Cash or Service (or both). The various types of loans are:

NDSL (National Direct Student Loans). Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the NDSL Fiscal Operations Report, OE Form 1152.1.

FEDERALLY INSURED STUDENT LOANS. Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. This is an area of financial assistance where a direct loan from a lending institution to a student may not be recorded by the reporting institution; however, all known Federally insured loans are to be reported.

STATE INSURED LOANS. Authorized under Title IV of the Higher Education Act of 1965, as amended.

INSTITUTIONAL LOANS - REPAYABLE BY CASH ONLY. Includes those loans provided by the reporting institution that only can be repaid by cash.

LOANS THROUGH PRIVATE SOURCES - REPAYABLE BY CASH ONLY. Includes those loans provided by any non-government source which are not Federally insured and which are repayable by cash only.

ALL OTHER LOANS - REPAYABLE BY CASH ONLY. Includes all other types of loans, repayable by cash only, which are not specifically addressed in categories above.

INSTITUTIONAL LOANS - REPAYABLE BY CASH OR SERVICE. Includes those loans provided by the reporting institution that may be repaid by cash or by service.

PRIVATE SOURCES - REPAYABLE BY CASH OR SERVICE. Includes those loans provided by any non-government source which are not Federally insured and which are repayable by cash or service.

ALL OTHER LOANS - REPAYABLE BY CASH OR SERVICE. Includes all other types of loans repayable by cash or service which are specifically addressed above.

Student Employment

This category of financial assistance includes student employment work opportunities such as the College Work/Study Program, Student Assistantships, or any other type of student employment at the institution. These types of work programs are:

FEDERAL PROGRAM - COLLEGE WORK/STUDY. Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the College Work/Study Fiscal Operations Report OR Form 1152.1.

INSTITUTIONAL STUDENT EMPLOYMENT. Includes the student earnings from the reporting institution's own employment program. Employment may be on or off campus.

ALL OTHER STUDENT WORK/STUDY. Includes all other types of work/study programs that are not financed by the Federal College Work/Study Program.
